“MANKIND OVERCOMING MADNESS AMONG US”

COMMUNITY EVENTS

“After The Fact”

These engaging community events consists of a ‘focus group to forum presentation’ activity plan comprised of individuals across three generations. Through guided topics of current community dilemmas, participants will share testimonies that deliver facts of a choice after the situation has been experienced and the solutions they were exposed to for restoration.

Focus group participants that feel comfortable sharing their lifestyle experiences will be mentored then scheduled as a guest speaker at a relative audience community event.

Initial data collected during focus groups will provide: 1) a baseline of the targeted community’s emotional condition, 2) conflict resolution understanding and 3) a spectrum of assistance choices available in participant communities.

PARTICIPANT TOOLS INCLUDE:

“Cohesive Development”

The development of a viable society is rooted in the environmental habits a child experiences that compliments a living habit cohesive to the community they live.

Over the decades, parenting skills have become random acts of convenient behaviors that produced a lack of knowledgeable input for a child’s outcome to be beneficial to the greater society where the child will live as an adult in the future.

Our world has evolved through so many travesties and has accumulated a multitude of resources collectively arranged. The Cohesive Development community events are orchestrated to streamline pathways for participants to gain 1) a better understanding of available choices to make and 2) access to resources to implement a cohesive lifestyle.
